

# Session 3B: Implementation – student-led

Resources	Students will need from their Session 3B work packs: <ul style="list-style-type: none"><li>• Press release</li><li>• The 'Circle of Life' award sample application form</li><li>• OPTIONAL: a camera.</li></ul>	
	<p>Students should be supported in this final planning session which will be entirely dictated by the needs they have to complete their preparation.</p> <p>Students can use the template of the press release to create their own press release about their social action project and the impact which it is having in their local community.</p> <p>If plans for delivery are not in place, then there should be the expectation that this is finished by a specific date that has been agreed and remind them that they will need to collect evidence of project delivery, through photos etc.</p>
